We wish to thank the Umatilla County planning commissioners for their two-plus years of hard work on changing wind facility siting standards in Umatilla County. They have had the wisdom and foresight to look to the future to protect Umatilla County residents and our resources. They are to be commended.

We also wish to thank the Umatilla County commissioners for upholding the Umatilla County planning commissions revisions. All the Umatilla County commissioners made hard decisions but did what was in the best interest of the citizens of Umatilla County. We thank Commissioners Dennis Doherty and Larry Givens for having the courage to stand firm on the setback issue. We thank Commissioner Bill Hansell for his work on the Walla Walla watershed issue.

Robin and Cindy Severe
